The items identified in this Information Disclosure Statement may or may not be "material" to the patentability of one or more of the pending claims in this application pursuant to 37 CFR §1.56. The submission of this Information Disclosure Statement by the Applicant shall not be construed as an admission that any such patent, publication, or other information referred to herein is, or is considered to be, material to patentability (37 CFR §1.97(h)), or even qualified as "prior art" under 35 USC §102 with respect to this invention, unless specifically designated by the Applicant as such. In addition, the filing of this Information Disclosure Statement shall not be construed to mean that a search has been made or that no other material information, as defined in 37 CFR §1.56, exists (37 CFR § 1.97(g)).

Pursuant to 37 CFR §1.98(a)(3), any information disclosure statement filed under 37 CFR §1.97 shall include a concise explanation of the relevance, as it is presently understood by the individual designated in §1.56(c) most knowledgeable about the content of the information, of each patent, publication or other information listed that is not in the English language. In compliance with the rule, the Applicant states that Applicant has not analyzed these documents and, therefore, declines to comment on their relevance at this time. If the examiner has any questions concerning the relevance of the cited references in this disclosure, please contact the undersigned attorney.
